How we work

Risks - from the ordinary to the extra-ordinary

We use our commercial acumen (MBA, Chartered Manager), to understand your business and its present and future risks before investigating potential insurance solutions. Our approach covers every facet of your business that presents a potential risk, from the everyday to the unexpected.

Investigate then explain the best possible quotes

We canvass the market appropriate to your needs to obtain competitive quotes from different insurers. We show you how the market sits, and explain the relative benefits and differences of each quote.

Why choose us

- You could benefit from:
- An unrivalled understanding of the risks associated to your business
 - First-class customer service for each and every client regardless of size
 - Competitive transparent pricing by obtaining alternative terms, and working for a fee not brokerage
 - 24/7 support

forethought brokers are an independent Insurance broker, specialising in commercial Insurances.

Finding the best fit for your business - not ours

We are not simply a transactional broker, shoehorning your insurances into an 'off the shelf' product, and looking to renew the next year. Neither do we just operate a single 'agency' and push all our clients to that one insurer.

Transparent fee for best price guarantee

Traditionally earning brokerage (a % of your insurance premium) can be a disincentive to obtain the best prices for you, as a cheaper premium earns the broker proportionately less. We therefore, prefer to work on a transparent fee basis, to reflect our commitment to finding you the best coverage, at the best price possible.

I have known Mr Chappell professionally for at least 5 years, and he has been responsible for arranging my company's Aviation Third Party Liability Insurance. I have found him professional, trustworthy and a great asset to us in arranging our World-wide coverage, and have no hesitation in recommending him.

We look forward to investigating your needs. Even if your renewal is some months away, let us know and we can begin planning for a more affordable future for your business.
